I. Introduction

This manual documents the business continuity plan for GenWealth Financial Advisors and GenWealth Insurance Services, a LPL Financial branch office that conducts business in Retirement Planning, Financial Planning and Investments. The purpose of this manual is to document the plans for the recovery of our critical business functions and systems in the event of a business disruption.

II. Emergency Contact Persons

LPL Financial provides FINRA with the contact information for 2 emergency contact persons to fulfill this requirement for all branch office locations under LPL Financial. These 2 emergency contact persons are registered principles for the LPL Financial. LPL Financial stays in compliance by updating this information upon any material change and reviewing the information quarterly to ensure it is up to date.

Rule: FINRA Rule 4370(f); NASD Rule 1160.

III. Branch Policy

Our branch's policy is to respond to a Significant Business Disruption (SBD) by safeguarding employees' lives and our property, making a financial and operational assessment, quickly recovering and resuming operations, protecting all of our branch's books and records, and allowing our customers to transact business. In the event that we determine we are unable to continue our business, we will direct our customers to the LPL Financial service center at (800) 877-7210 for emergency assistance and access to their funds.

A. Significant Business Disruptions (SBDs)

Our plan anticipates two kinds of SBDs, internal and external. Internal SBDs affect only our branch's ability to communicate and do business, such as a fire in our building. External SBDs prevent the operation of the securities markets or a number of branches, such as a terrorist attack, a city flood, or a wide-scale, regional disruption. Our response to an external SBD relies more heavily on other organizations and systems, especially on the capabilities of LPL Financial.

B. Approval and Execution Authority

John Shrewsbury, a registered principal and co-owner, is responsible for approving the plan and for reviewing it annually.

Janet Walker, a registered principal and co-owner, *has* the authority to execute this BCP.

C. Plan Location and Access

Our branch will maintain copies of its BCP plan and the annual reviews, and the changes that have been made to it for inspection. An electronic copy of our plan is located on our firm website: www.getreadyforthefuture.com.

Rule: FINRA Rule 4370(b), (d) and (e).

LPL Financial & Affiliate Business Continuation Plan Summary

LPL Financial and our affiliate—The Private Trust Company—are committed to providing timely service to our clients. We recognize the importance of preparing for various disaster scenarios that could hamper our ability to provide service. We have taken aggressive steps to provide for business contingency and continuity planning under a variety of potential scenarios. We continue to evaluate our continuity plans and take the necessary actions to ensure the proper resources are available to provide for the recovery and timely resumption of critical business operations to internal business units, third-party business partners, and clients.

LPL Financial Business Continuation Strategy

Headquarters and Staff

LPL Financial has headquarters and operations staff located in three principal locations: Boston, Charlotte, and San Diego. The Boston office serves as the primary site for our executive office, Legal, and Research. These units, while vital to the company on a continuing basis, are not considered mission-critical for the daily back-office operation of our business. In the event of a disaster that would make the Boston office unserviceable, the San Diego office is its alternative facility.

Mission-Critical Departments

Both the Charlotte and San Diego offices serve as primary locations for our mission-critical departments, including: Operations, Trade Execution and Processing, and the Service Center. Each office serves as the backup for the other. There are documented and tested plans in place to provide for a fail-over between the two sites.

The LPL Financial Production Data Center is located in a second and distinct Charlotte location. The alternate Data Center is located within the firm's San Diego location.

- The Production Data Center facility is located approximately two miles from the Charlotte office location.
- The Production Data Center infrastructure is fully redundant in terms of power, network, and equipment.
- The seven buildings at the San Diego location also have fully redundant networking and telecommunications systems.
- There is redundant connectivity across Boston, Charlotte, and San Diego.

The LPL Financial brokerage computing platform is operated in another geographical region of the United States by an unaffiliated third-party vendor. None of the scenarios presented in this document would pose a threat of business disruption to this remote site. The third-party vendor has a complete business continuity plan that includes alternative sites and recovery times within four hours.

Business Scenario Preparedness

Single Building Disruption

If LPL Financial loses the ability to perform business in one of our buildings, recovery staff associated with mission-critical functions will begin processing at our alternate processing site (Boston, Charlotte, or San Diego, depending on the impacted department).

We have plans in place for this relocation, and these plans are tested periodically. Recovery time objectives vary based on the criticality of the function that is disrupted.

Campus Disruption

If LPL Financial loses the ability to perform business at either the Charlotte or San Diego location, mission-critical San Diego functions would be failed over to our Charlotte office and vice versa. Staff associated with non-mission-critical functions will be relocated to an alternative site (e.g., hotel, home) in an unaffected area. We have plans in place for this relocation and they are tested periodically. Recovery time objectives vary based on the criticality of each function.

Remote Data Center Disruption

If LPL Financial loses the ability to perform business in our Production Data Center in Charlotte, mission-critical systems will be recovered to our San Diego Data Center. We have plans in place for this recovery and they are tested periodically. Mission-critical systems recovery is expected within four hours.

Pandemic Event

LPL Financial has plans in place to continue business during a pandemic event. Our plan is a multi-tiered action plan based on the World Health Organization (WHO) alert phases with triggering events for each phase. As the threat of a pandemic becomes greater and a new phase is triggered, we will assess our plans and determine the appropriate course of action.

Access to Your Funds

A site outage should not impact our customers' ability to access to their available funds, as LPL Financial business contingency plans are designed to ensure sustained service. However, their ability to trade securities may be impacted by market events outside the control of LPL Financial, such as when the market was closed following the September 11 tragedy. Our tested business continuity plans result in necessary personnel being available to approve transactions that result in the disbursement of available funds. In the event that your LPL Financial advisor ceases operations due to a significant business interruption, you may call (800) 877-7210 for emergency assistance.

Conclusion

Please be aware that, while we have detailed plans in place, we cannot guarantee that we will be successful in achieving recovery in the times noted above. For example, we may not be able to implement a plan during a disaster as quickly as we expect, or there may be disasters that we have been unable to anticipate and for which we have no plan. Additionally, if parts of our plan are dependent upon third parties, we will have no control over the success or failure of the third party to respond appropriately to the challenges posed at the time of the disaster. Our continuity plans are periodically updated and modified. Updated plan summaries will be made available on our website (www.lpl.com) and can be obtained by submitting a written request.
